Your data Your asset

Patrick Graber

Head of Business Development, Procivis AG

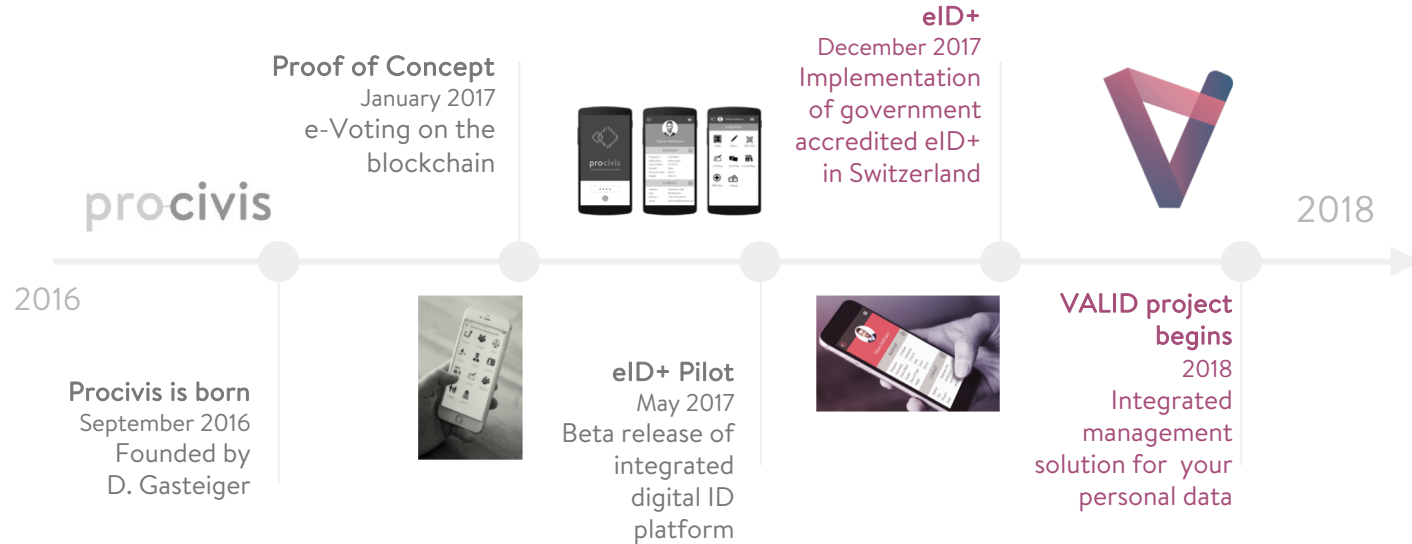

Master Thesis, HSG: “Towards Blockchain Mediated Governance for Decentralised Autonomous Corporations” in cooperation with ETH Zurich

Joined Blockchain Source GmbH – a technology partner of Procivis AG

Leading the VALID ITO at Procivis AG

Our next product (r)evolution

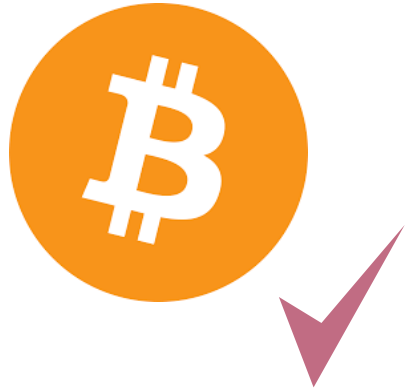

“ What the **internet** did for communications,
blockchain will do for trusted transactions. ”

-Ginni Rometty, CEO of IBM

Blockchain - a transaction engine
for a peer to peer economy

Blockchain as transaction engine for any asset?

... however, rights that are attached to a person need to be enforceable beyond monetary penalties

Legal Identity is...

a collection of attributes –
name, date of birth,
residential address
photograph, etc. - verified
and approved by a legal
entity such as a government

Legal ID is necessary to access...

Financial Services

Opening a bank
account, obtaining
capital and credit

Government Services

Subsidies & benefits and
other services including
voting, legal recourse,
owning property etc.

Healthcare

Medical insurance,
vaccinations,
maternal care

Education

Enrolment in
schools, access to
scholarships

Gender Equality

e.g. Prevention of
early/child marriage

Legal Migration

Migration for education,
employment or asylum

Problem

Traditional legal identities are...

Paper Based

**Issued solely by
governments**

Not tailored for the Digital Age

Citizen – Government and Citizen –
Business interactions are often
carried out digitally

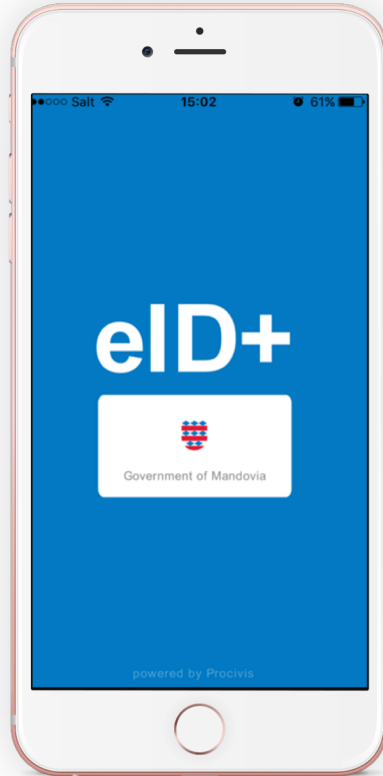

1.1 bn people are excluded

Governments often lack the resources
or the will to provide universal access
to legal identity

Procvivis eID+ is...

an enabler of secure
digital interactions with
governments and
businesses

**Digital
identity platform**

**Mobile phone
based**

**Open APIs for
innovation**

**Government-
approved**

Intuitive

Secure

Multi-stakeholder approach towards universal access to ID

**Identity attributes
validated by multiple
trusted parties**

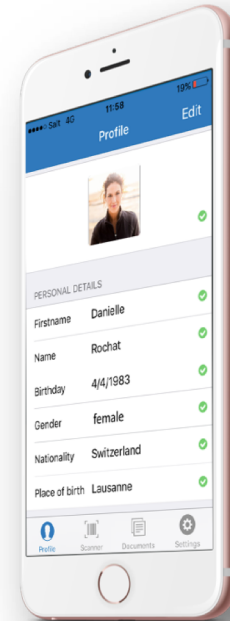

Government

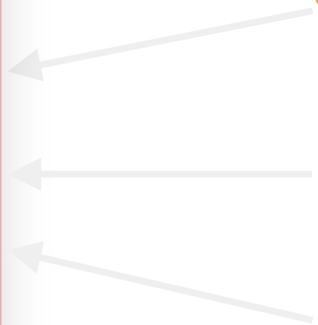

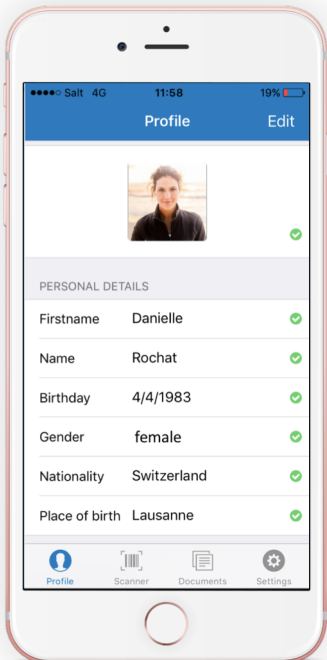

Businesses

**NGOs and
Supranational
Organisations**

An ID wallet holding claims from different platforms...

... but also extending the definition of digital identity

Core attributes

First name
Last name
Date of birth
Place of residence

Financial data

Online activity

...

Granular access to data
controlled by **users**

eCommerce
Data

Social Media
Data

Government
Data

Personal data stored
securely on VALID wallet

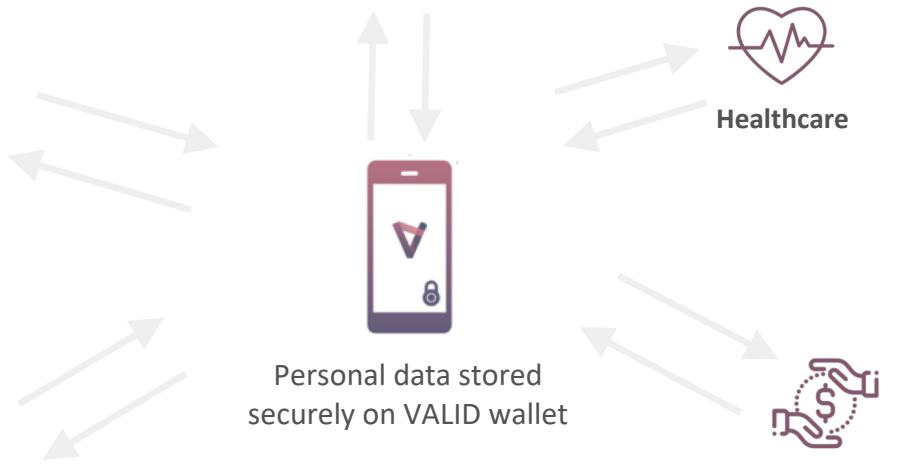

Healthcare

Credit Scores

Authenticity of data verified by
institutions,
guaranteed by the **blockchain**

GDPR will give you the right to...

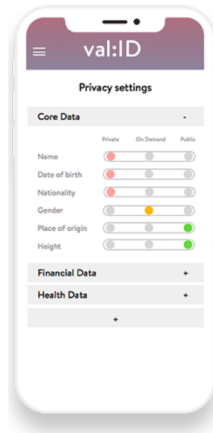

- **Access all personal data** that has been collected;
- Ask questions about the **purpose** of data collection;
- Express a **consent to data processing** and withdraw it at any time.

**REGULATION (EU) 2016/679 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL
of 27 April 2016**
